

TOWN OF WESTFORD ENGINEERING DEPARTMENT

PAUL M. STARRATT, P.E.
Town Engineer
JEREMY R. DOWNS, P.E.
Assistant Town Engineer

PUBLIC NOTICE

September 1, 2017

Dear Dunstable Road & Groton Road Stakeholder:

The Westford Engineering Department is overseeing the design of proposed improvements to the Dunstable Road & Groton Road intersection and we would like your input. As a part of the design process, the public is invited to stop by the downstairs meeting room at the J.V. Fletcher Library, 50 Main Street, on Wednesday, September 13, 2017 at any time between the hours of 4:30 PM and 6:30 PM to give their feedback and suggestions to town staff and the TEC, Inc. design team. This is meant to be an informal and interactive opportunity to gather local knowledge and a public perspective on this important intersection.

The proposed improvements include a traffic signal, limited sidewalks, bike lanes, crosswalks and updates to the drainage and water distribution systems. A plan is available for download or viewing at www.westfordma.gov/engineering

If you are unable to visit the Library on September 13th, your thoughts and opinions can be provided in writing to Paul Starratt, P.E., Town Engineer, 28 North Street, Westford, MA 01886, or pstarratt@westfordma.gov.

This intersection will also be discussed at the Board of Selectmen meeting on September 26, 2017. For more information about that meeting, you can register for electronic notifications and meeting agendas at www.westfordma.gov/subscriber.

Sincerely,

Paul Starratt, P.E.
Town Engineer
