

FY 2022 Budget Questions & Answers
Finance Committee

Dept. Number, Name + Account	Questioner's Name/Question	Response
510 Board of Health	Greene: Could you please provide all invoices charged to the vehicle maintenance line in FY20?	Stephens: See attachment.
510 Board of Health	Greene: What types of services are included in the "consulting services" line?	Stephens: Typically, this line item is used for third party professionals, new regulation guidance, hazmat, LSPs, technical support, or lab work interpretation if needed. COVID-19 reduced the need during the shut down, but any other normal year we use this.
510 Board of Health	Greene: Why is the Gasoline line about twice the FY20 actuals? How is it tracking in FY21?	Stephens: Gas in FY21 is tracking at around \$800 for the year. With the shutdown, we were driving less in the summer than usual. In FY20, almost no inspections were being done for three months of the year and we spent just over half the budget. There is an expectation that we will return to normal. Additionally, gas cost is climbing rapidly right now. For FY20 and part of FY21 the cost of fuel was cheaper.
510 Board of Health	Greene: Where does all the grant funding show up in the budget?	Stephens: We publish the grant activity each year in the Annual Town Report. Grants are not part of the operating budget and cannot be counted on year to year.
510 Board of Health	Greene: Can you provide a history of the revolving fund that tracks flu immunizations? 3- 5 years	O'Donnell: Please see attachment.
510 Board of Health	Bao: There is a difference of request budget v.s. TMR budget on nurse. How would the workload be re-distributed?	Stephens: TMR is "Town Manager Recommended" I am asking for 7.5 hours a week increase for my public health nurse position. Jodi has indicated she can fund this increase through CARES act funding through December 31, 2021. If the need is still apparent, we can address at the October 2021

		STM.
510 Board of Health	Greene: The invoices that I asked for do not add up to the total in the FY20 actuals	Stephens: See the above spread sheet. I have pulled this from my budget file. I will have my admin look for the other two receipts for the oil change and show brush.
510 Board of Health	Greene: Why would we bring a vehicle to Ayer for service?	Stephens: It had always been department practice and prior to my service in Westford to either use the vehicle dealership or Toms Auto. Oil changes have been sometimes done at the Dealership because they are done immediately which decreases “down time” for both the vehicle and staff.
510 Board of Health	Greene: General vehicle maintenance - do we have any sort of agreements with local shops for repairs at some discount? Does the DPW get a better rate on parts or tires? Could the mechanic on staff do any of these repairs saving money and at the same time getting a look at our vehicles to keep them in good shape?	Stephens: Toms Auto has been the local shop that we use for general repairs and maintenance. Currently the 2017 Ford explorer needs to go in for emergency brake work. My plan is to send it there. I do not have an agreement with the DPW for repairs. They only have one mechanic who is tied up with its own fleet.
510 Board of Health	Greene: I'd like a current list of our vehicle fleet	O'Donnell: Please see attached to the complete list. Stephens: For the BOH, 2017 Ford Explorer, 2019 Ford F-150, 2021 5x8 covered trailer issued by the State for Flu vaccine supplies.

FY 2022 Budget Questions & Answers
Finance Committee

Dept. Number, Name + Account	Questioner's Name/Question	Response
510 Board of Health	Greene: The Flu vaccination revolving fund seems to be growing, which I'm assuming means we do not lose money on vaccinations? What else can these funds be used for? What happens to the increasing balance?	Stephens: The Board of Health needs sufficient funds in the account to preorder vaccines each year because we get reimbursed after the fact. Town Meeting could appropriate funds from this account to offset administrative expenses related to future clinics.
510 Board of Health	Greene: Please provide the invoices for the consulting services expense line item for FY20.	Stephens: We did not spend anything in FY-20 due to COVID and the spending freeze. We spent \$1,275 in FY-19 on software consulting for electronic inspections and about 2K in FY-18
541 Council on Aging	FitzPatrick: is the building maint for anything specific? Broader question... how involved is the facilities manager on all the maint budgets across all the town buildings? Has there been any thought to moving all the maint dollars to his oversight?	Claro: Building maintenance is not for anything specific except for repairs and replacements needed for the successful operations of the center. Many of the day to day repairs are handled by our tenured maintenance staff. Other larger repairs/replacements such as HVAC, elevator, boilers, alarm system, etc. I we reach out to Paul Fox for his guidance and support.
541 Council on Aging	FitzPatrick: do the friends sponsor most of the programs? What will be lost by cutting that budget?	Claro: Thank you for that question. The Friends do sponsor most of the exercise classes as well as fund special events and enrichment programs. Regarding loss of budget for programs, I anticipate covering through the following sources: new grants, COA Gift account and/or perhaps a minimal increase in some COA programming. I have been told through MCOA that our formula grant from EOEA has been reduced from \$12 per senior to \$9 per senior due to current State budget

**FY 2022 Budget Questions & Answers
Finance Committee**

Dept. Number, Name + Account	Questioner's Name/Question	Response
		cuts. This will be a substantial loss, but with projected population growth reflected in our new census of adults 60+ this could help offset the loss of State funding.
541 Council on Aging	Greene: Could you give an update on the HVAC system?	Fox: We are continuing to monitor the HVAC system. The heating system is working adequately. The cooling side will continue to be supplemented with window air conditioning units. We could possibly explore the HVAC system in the aforementioned energy performance contract, or possibly have a capital request in the future. We should have a plan in place to address the situation within two years.
541 Council on Aging	Bao: Additional description on Taxi Initiative/Ride program might be helpful.	Claro: The Taxi Initiative is a transportation option which allows residents who have a transportation need to receive an UBER gift card and or taxi ride that haven't given a 48-hour notice and COA vans are full. We also use this transportation option for those age 55+ and/or in financial need (any age) that are seeking transportation on the weekend or after-hours of COA van operation. The RIDE is funded through a grant from the Lowell Regional Transit Authority. This funding supports the operation of three vans that are provided to the Town on a lease basis through the LRTA. The COA provide transportation to older adults age 55+, disabled and or residents in financial hardship (any age) Monday-thru Friday from 8AM-4PM. This van service is operated on a

		donation-basis. Medical rides, employment and grocery runs are given priority in scheduling.
543 Veterans Services	FitzPatrick: Is the total paid out for veteran services consistent with – actually less – than FY20?	Cobleigh: The total amount paid out FY21 so far is much lower than FY20. Due to Covid restrictions on events, spending freezes and fluctuations in Ch115 benefits we are on track to spend between \$105,000 to \$120,000. The FY20 total expended was \$145,218.
543 Veterans Services	Bao: What would be covered by the “Veteran’s Service” under expenses?	Cobleigh: This covers Ch115 benefits which is financial assistance for food, shelter, clothing, fuel, and medical care for qualifying veterans and their dependents.
