

Westford Police Community Event Team

“Through collaborative efforts and partnerships, the Westford Police Department’s Community Event Team promotes activities within a positive environment to increase public trust and confidence that fosters stronger community-police relationships. By hosting and participating in personalized, informal meetings, opportunities are created for the Community Event Team to interact with members of the public in a positive, non-enforcement manner. These interactions build relationships, help to break down personal barriers, and allow valuable partnerships to be formed and information shared.”
