Subject: 66 Boston Road visit

Jodi,

After the Dept. Head Meeting I went down to 66 Boston Road.

The building itself is not in bad condition (not a potential collapse hazard).

The 2+ greenhouses in the back of the property that are either collapsed or uncovered do have various items thrown about and are a mess that needs to be cleaned up.

The building itself is open to the public and needs to be secured. I was able to open a door and slide a window open without any effort at all.

I called Ebi to discuss the issues with him. He stated that the junk will be removed within the next 3 to 4 weeks and he will see what he can do about the building. Ebi called back later to inform me that he will have one of his people go over this weekend and board up / block up the building.

When discussing the issues with him it sounds like the people that are working on the property will be doing it on the weekends.

Respectfully,

Matthew Hakala, CBO
Building Commissioner
Town of Westford
