

Town of Westford

11/05/15

Westford, MA 01886

I have been a resident of Groton for past 25 years, and I am the owner of Trans Med USA Inc., a wholesale medical supply distribution company located in Tyngsboro, MA, which has been actively involved in the distribution of medical products to the Commonwealth of Mass, across the USA, and overseas for 30 years now. Currently I have a project in the town of Groton building exquisite custom homes for distinguished clients whom require nothing less than the best quality residence.

It has been my dream for past 20 years to locate and establish a well-defined atmosphere for clients to enjoy a lunch or dinner that can be memorable for years to come. I believe that my partner Mr. Steve Wong owner of Bamboo and 8 other restaurants, and I have found such place at 66-68 Boston Rd. that can fulfill our requirement to build and showcase such an establishment in the Town of Westford. We believe that our commitment to this property and Town of Westford will bring a new chapter that we can all be proud of. Please do not hesitate to contact us for any further details.

Regards,
