## ENGINEERING DEPARTMENT

PAUL M. STARRATT, P.E.  
Town Engineer  
JEREMY R. DOWNS, P.E.  
Assistant Town Engineer

December 3, 2020

Dear Beaver Brook Road Stakeholder:

The Massachusetts Department of Transportation (MassDOT) will be holding a pre-recorded Design Public Hearing for the proposed Beaver Brook Bridge Project online at:

<https://www.mass.gov/massdot-highway-design-public-hearings>

The recording will be available for viewing from Tuesday, December 15, 2020 to December 29, 2020. The purpose of this hearing is to provide the public with the opportunity to become fully acquainted with the proposed culvert replacement project. All views and comments made as a part of the hearing process will be reviewed and considered to the maximum extent possible.

Residents who require assistance accessing this online material, or the internet, may schedule a browsing appointment at the J.V. Fletcher Library, Monday through Friday, from 11:00 AM to 2:00 PM. Please contact the library directly at 978-692-5555.

The proposed project consists of a full replacement of the existing culvert structure with a bridge structure. The bridge structure will consist of precast concrete spread footing abutments and precast concrete deck beams. The existing gas line that sits between the roadway surface and the top of the existing culvert structure will be relocated to the upstream side of the bridge. A 5'-6" concrete sidewalk will be added to the west side of the bridge. The boat ramp at the southwest corner of the bridge will be replaced. It is anticipated that Beaver Brook Road will be closed to through traffic and detoured for approximately 3 -4 months.

Project plans, a detour map and the Design Public Hearing Handout are available online at:

[www.westfordma.gov/engineering](http://www.westfordma.gov/engineering)

The handout provides additional project information as well as a comment sheet that may be submitted directly to MassDOT.

Sincerely,

Paul Starratt, P.E.  
Town Engineer
